Professional Summary

Full Stack Developer with hands-on experience in Python, Django, Django REST Framework (DRF), and Angular, skilled in designing and developing efficient, scalable, and user-friendly web applications. Proficient in HTML, CSS, and modern frontend frameworks, with a strong understanding of RESTful APIs and database integration. Committed to delivering high-quality solutions through teamwork, problem-solving, and continuous learning to contribute effectively to dynamic development projects.

Education

- Technodot Academy of R&D&I** 2025
Python Django Angular Development
- National Institute of Open Schooling** 2024
Humanities

Skills

- Python
- Django
- Javascript
- Typescript
- HTML
- CSS
- Angular
- PostgreSQL
- Django REST Framework
- Microsoft Excel
- Communication Skills
- Presentation Skill

Projects

- Built dynamic web applications using Django, Angular, and REST APIs.
- Online Tech Course Platform (CodeYatra)**
Developed a full-stack online course platform where users can browse, enroll, and learn from various tech courses. The project uses Django REST Framework for backend APIs and Angular (TypeScript) for the frontend to create a smooth, responsive user experience.

Technologies Used: Django REST Framework, Angular, TypeScript, JavaScript, Python, HTML, CSS, PostgreSQL.

Experience

- Febno Technologies** 01-08-2025 - 30-11-2025
Full Stack Developer

Working on real-world client projects as part of the software development team.

Contributing to web application development using modern technologies and best practices.

Assisting in debugging, testing, and improving project features for better performance and usability.

Collaborating with senior developers to understand project workflows, documentation, and deployment processes.

Achievements & Awards

- Completed Full Stack Developer Training at Technodot Academy
- Passed certification in Microsoft Office (Data Entry Operations, 2024)
- Passed LBS Centre's Python Programming Exam – 2025

Activities

- Guided junior batchmates in building their first portfolio website
- Volunteered in mentoring junior students on HTML, CSS, and arrays
- Participated in a Django-Angular Full Stack Hackathon at Technodot Academy
- Active member in coding discussions and peer learning sessions at Technodot

Interests

- Web Application Development
- UI/UX Design
- Artificial Intelligence & Automation
- Problem Solving and Coding Challenges
- Attending Tech Meetups or Webinars

Languages

- English
- Malayalam
- Arabic
